

# Happy New Year from Kay Papa Nou & Unity House

---

Dear friends and all,

28-Dec.-17

We praise the name of God for all things He does. We are so grateful for the Lord's presence that was strong among us.

We hope that you are very well.

This year our goal is to come alongside the community and help those children who couldn't have the opportunity to go to school, to eat, have a spiritual education and a better future. We must not forget that the works, and all our projects, are about people... We are enjoying our time and look forward to what the Lord has in store for ***Kay Papa Nou and Unity House!***

2017 also saw the completion of an addition to the school in Canaan. The new rebuilding of the storage room that burned down a year ago has been rebuilt at KPN with space for music and studying and a classroom. Music and classrooms will serve to enhance the education of the children. This ensures your investment will produce dividends for generations to come!

Of course much of what is done would not be possible without the people who work along side us - our staff, volunteers, and the contributions of our supporters. As we look back on 2017, we feel an overwhelming sense of gratitude to all of you who gives their help with the children in this poor country by investing in their future..

As usual, we reserve some minute to worship and prayer time with almost everyone participating, and everyone also has an opportunity to participate in a Bible study three evenings a week, and they really enjoy it. But, what I've been reminded of this year, is that ultimately God is always in control. It's been an absolutely amazing 19 years since we began working to help the poor children in Haiti and we've been overwhelming blessed in our spirit to have accomplished all that we have. We have enjoyed it.

Having said that, we believe we are on the verge of seeing even greater things, lives changed and Thank you for changing lives... Thank you for helping us!!!

On behalf of all the children, Danny and I are wishing all of you a Blessed New Year 2018!

Sincerely,  
David and Danny Guillaume.

Dear friends,

03-Jan.-18

We are without words of thankfulness to the Lord who was always here during the year to protect and keep us. We hope the Lord has been there to take care of you.

We want to be grateful to all our supporters who were contributing for us to succeed this year financially and through your prayers. We give a special thanks to Ted and Joyce and Neighbors Near and Far who were devout to help us. Nowadays everything comes with difficulty. So, we thank every person who participates in our growth all year long.

As we look back over the past year, we feel an overwhelming sense of gratitude to all of you who give their help and sacrifice of time and money. We thank our staff and volunteers.

But now 2017 is gone. What an encouraging, uplifting year.

We celebrated the New Year at Canaan - a Celebration of Life. We ate and drank together with many guests. We remembered our blessings in 2017 and thought of our hopes for 2018. We had a wonderful time.

Our deep regards and salutations to Govans, Woodbrook, Roland Park and many other friends. Thank you very much for your generosity.

May the Lord continue to keep you in his care for this New Year and cover you under his wings so you will be safe and give you the peace and joy, in the name of Jesus.

Much love to all and Happy New Year!

Youse odly
